SUMMARY

Passionate Full-Stack Developer with hands-on experience in building responsive web and mobile applications. Skilled in JavaScript, React, Python, and backend integration using Supabase and Firebase. Experienced in real-world projects like expense trackers, NLP-based apps, and interactive web solutions, with strong problem-solving skills.

WORK EXPERIENCE

January 2026 – March 2026

Intern – Brooklyn Textiles International Pvt Ltd

- Developed and maintained the company's website, handling frontend and backend tasks, and created responsive interfaces using HTML and CSS. Gained practical industry experience and collaborated with teams to enhance problem-solving skills.
-

EDUCATION

Bachelor of Software Engineering | 2022-2026

The University of Faisalabad, West Canal Road

- Relevant Coursework: Web Development
 - GPA: 3.76
-

PROJECTS

- **Ludo Game** [Visit Project](#)

Tech Used: HTML, CSS, JavaScript

What I Learned: I learned to build an interactive Ludo board, implement game rules using JavaScript, and manage multiple players with smooth turn-based logic.

- **Text Preprocessing Tool** [Visit Project](#)

Tech Used: React.js

What I Learned: I learned to clean and process text data, remove stop words, tokenize sentences, and prepare inputs for further analysis or machine learning.

- **Event Managemnt System** [Visit Project](#)

Tech Used: React.js, Firebase

What I Learned: I learned to build a responsive expense tracker using React, manage user input, and display real-time balance and transaction history.

- **Simon Game** [Visit Project](#)

Tech Used: HTML, CSS, JavaScript

What I Learned: I learned to build an interactive Simon Game, implement color and sound sequences, manage user input, and apply game logic for matching patterns.

- **Expense Tracker** [Visit Project](#)

Tech Used: React.js, (Python)FastApi, Supabase

What I Learned: I learned to build a responsive expense tracker using React, manage user input, and display real-time balance and transaction history.

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React.js, Next.js, Python, React Native, Firebase, Supabase, and Appwrite.
- **Certifications:**
 - Web and Mobile App Development – SMIT
 - JavaScript Essentials – Cisco Networking Academy
 - Computer Applications – TEVTA (6-Month)
